The Future is Bright
We often treat commencement as the end of an academic journey, and that is not what the word actually means. To commence is to begin. Commencement is the celebration of a new beginning, and it is one of my favorite moments as the president of CF.

This issue of Connection highlights some of our outstanding graduates. As they begin their next chapter, I’m confident their future is bright, just as the future is bright for the College of Central Florida.

The college made a monumental step in construction of our new Jack Wilkinson Levy Campus this spring. We are doing more to help our graduates find jobs, and our students, faculty and staff continue to be among the best and brightest in the state. The CF Foundation and Alumni Association continue to help us make great things happen by building relationships with alumni and donors.

As you commence your summer travels, I hope you are able to enjoy some time at our treasured Appleton Museum of Art. There is always something exciting happening at CF!

Mission Statement
College of Central Florida provides access to high quality, high value baccalaureate degrees, associate degrees, certificates and diplomas, and promotes the economic, social and cultural development of our community.
The College of Central Florida is one of the top 150 colleges in the country deemed eligible to compete for the $1 million Aspen Prize for Community College Excellence; in June, CF participated in a telephone interview to be considered for the top 10. Awarded every two years, Aspen is the nation’s signature recognition of high achievement and performance among America’s community colleges and recognizes institutions for exceptional student outcomes in four areas: student learning, certificate and degree completion, employment and earnings, and high levels of access and success for minority and low-income students.

President Henningsen receives national Phi Theta Kappa Award
Dr. Jim Henningsen received the 2016 Shirley B. Gordon Award of Distinction at Phi Theta Kappa’s annual convention in National Harbor, Maryland, April 7-9. Henningsen received the award for his outstanding support of PTK, the oldest, largest and most prestigious honor society recognizing students pursuing two-year degrees. PTK is made up of more than 3 million members and nearly 1,300 chapters in nine nations.

CF among top 10 percent of U.S. Colleges
The College of Central Florida is one of the top 10 percent of U.S. Colleges.

Hampton Center Dental Clinic expands
In April the college received a $416,032 grant from the Marion County Hospital District to renovate the Marion County Dental Clinic at the CF Hampton Center. CF will add five dental stations to the clinic, increasing to 13 total chairs, which will provide more than 6,000 adult dental treatments annually. CF partners with the Department of Health in Marion County to provide dental care to underserved populations and to provide hands-on training to students in the CF Dental Assisting program. Renovations are expected to be completed by October.

Guaranteed admission to UCF for CF students
CF has joined DirectConnect to UCF. This partnership with the University of Central Florida guarantees admission to students who earn an Associate in Arts or an articulated Associate in Science at CF. “This new partnership is a huge benefit to our students and community,” said Dr. Jim Henningsen, CF president. “It gives students the opportunity to complete their first two years at CF, where they thrive in smaller classes with our award-winning faculty and programs and pay less in tuition. It is a giant step forward in helping increase the education attainment level of our community by creating access to bachelor’s degree programs in Marion, Citrus and Levy counties.”

BSN program earns accreditation
The Bachelor of Science in Nursing program has become accredited by the Accreditation Commission for Education in Nursing. CF is the only college in Marion County with a BSN accredited by ACEN, which is recognized by the U.S. Department of Education as the accrediting body for nursing education programs. CF began offering the BSN in fall 2014 as part of a national movement to better educate nurses and meet the Institute of Medicine’s recommendation that the number of practicing nurses with baccalaureate degrees increase to 80 percent by 2020. The first CF students to complete the program graduated in December 2015.

CF launches Patriots Mail for students
The new CF Patriots Mail email ensures a reliable system for communications from the college to students, as well as a professional email address students can use as they begin their search for employment. The @Patriots.CF.edu accounts include several free tools: Microsoft Office 365 ProPlus, including Word, PowerPoint, Excel, Access and OneDrive in the Microsoft cloud. To learn more visit CF.edu/PatriotsMail.
The College of Central Florida Foundation received $150,000 from former Ocala postmaster Norton B. McNeal to establish the Norton B. McNeal and Norma R. McNeal Scholarship in Nursing.

A longtime resident of Ocala, Norton served as postmaster for 13 years before his retirement in 1977; he passed away in June 2015 and Norma passed in 2010. Norton’s nephew, Judge Ray McNeal, said, “Norton’s gift to the college is an expression of his love for Norma and his heart for individuals and families struggling with mental illness.”

CF has a long history of producing top quality health professionals, dating back to 1963. In August 2014, the college began offering a Bachelor of Science in Nursing to address the need for more highly trained nurses locally and statewide.

“This is a wonderful legacy and wonderful gift that the McNeals have provided,” said Dr. Jim Henningsen, CF president. “It will support nurses long into the future and enhance the quality of care in the region.”

One of the simplest ways to provide a legacy gift to the College of Central Florida is to include the CF Foundation in your will. Planned gifts help ensure that our students have the necessary funds to transform their lives through education. For more information about including the CF Foundation in your will, contact Traci Mason, masont@cf.edu or 352-873-5808, or visit CF.edu/Foundation.

The College of Central Florida Foundation celebrated a record-breaking faculty and staff campaign in February. The foundation’s annual CF Family Campaign ended Feb. 19 with a record 94 percent of full-time CF employees giving more than $28,000 to support the work of faculty and dreams of students.

“Our faculty and staff went above and beyond to show students, our peers and the community that those closest to the college’s mission believe in it enough to give beyond their service as employees,” said Dr. Henningsen.

This year’s campaign theme was CF Everyday Hero. “Our faculty and staff are truly heroes every day through their interactions with our students. A participation rate of 94 percent is unheard of in these sorts of campaigns and is a true testament to our employees’ belief in our institution and the students we serve,” said Chris Knife, CF Foundation executive director.

The annual CF Family Campaign raised more than $63,000 to fund the foundation’s expanded STEPS to CF scholarship program. Three new scholarships will be awarded annually to promising fifth-graders from the Boys & Girls Club of Marion County.

This year’s event raised more than $63,000 to fund the foundation’s expanded STEPS to CF scholarship program. Three new scholarships will be awarded annually to promising fifth-graders from the Boys & Girls Club of Marion County.

The scholarship program is a spinoff of the foundation’s successful Scholarships Taking Elementary Promising Students to CF, or STEPS program, which offers deserving fifth-grade students a $4,000 scholarship to CF upon their graduation from high school, provided they remain drug- and crime-free and hold their record of academic achievement.

As always, this party-with-a-purpose mixes in a little friendly competition with the restaurants. Eaton’s Beach Sandbar & Grill was named Best of Taste and was awarded Best Presentation. Arthur’s American Bistro at the Ocala Hilton was named runner-up. The Braised Onion in Ocala was voted People’s Choice and Trilogy at Ocala Preserve secured the title of Best Dessert.

“The real winners of the evening are the students who will receive this life changing gift of education,” said Chris Knife, CF Foundation executive director.

“Without the generosity of participating area restaurants and our event sponsors, this event would not have the impact that it has.”

Plans are underway for the 29th annual Taste of Ocala, which is set for March 4, 2017.
Ferguson named Distinguished Alumni
CF alumnus Shane Ferguson received the 2016 Distinguished Alumni award at the college's spring commencement May 6. A native Ocalan, Ferguson holds both an Associate in Arts and Associate in Science from CF.

Captain Ferguson has enjoyed a 16-year career with City of Ocala Fire Rescue and Florida State Fire College. He imparts his wisdom on CF students each year through the Ocala Campus Student Activities Board Mock DUI event. In 2014, he received the Florida College System's Bob Graham Distinguished Service Award for his commitment to showing students the dangers of drinking and driving.

Ferguson and his wife, Marla, have five grown children who all reside and work in Ocala/Marion County. His belief in education and pride of CF is evident as three generations of Fergusons have graduated from CF.

Alumni enjoy an evening on campus
The College of Central Florida Alumni Association held an Alumni Mixer April 21 at the Webber Gallery. This event was the first of its kind and will be an annual event each spring. CF Alumni and guests mingled while enjoying food and spirits. Some said it was the first time they had been on campus in years. "It was a great opportunity to meet alumni from different graduating classes," said Kelly Besser, Alumni Board vice chair. "We all gained something and, best of all, connected through our love of CF!"

Welcome new alumni!
The Alumni Association celebrated spring 2016 graduates at Grad Bash April 27. Nearly 100 graduates were treated to food, prizes and mortarboard decorating. Graduates had the opportunity to visit with universities and businesses to gather information for their next step after graduation.

Thank you to Alumni Association sponsors Duggan, Joiner and Company CPAs, and Radiology Associates of Ocala. If your organization is interested in sponsoring the Alumni Association, call 352-873-5808, ext. 1726.

To find out more about the Alumni Association and events, like us on Facebook or visit CF.edu/alumni.

SOFTBALL TEAM
Smashes Records
It was another record-setting year for Lady Patriots softball. While the team may have lost its bid for the national tournament after spending most of the season ranked No. 1 in the nation, it still has plenty to be proud of.

The team set a school record (62-5) for wins in a season. Pitcher Kalen McGill set the single-season school record for pitching victories (33); the Patriots are 33-0 when she starts a game. McGill earned Mid-Florida Conference Pitcher of the Year and was also recognized as the Region 8 Pitcher of the Week on three occasions during the regular season.

As the state tournament began, Brooke Barlow led the nation in Runs Batted In with 106. She is one of only three players in Region 8 history to drive in more than 100 runs in a single season. Crystal Bustos and Monique Marier are the only others to do so.

Kelsee Cullop added 11 home runs and 92 RBI and joined Barlow (19) and Edrienne Williams (15) as CF players in double figures in home runs.

The Patriots entered the state tournament with 88 home runs, the second most hit by a team during the regular season in Region 8 history.

Barlow, McGill, Williams, Cullop, Mariah Wise, Cailey Nix and Lindsey White were named to the first-team all-Mid Florida Conference squad.

White made the first-team last year on her way to making all-state and second-team National Junior College Athletic Association All-American. During her career at CF, she set the career and single-season marks for triples, runs scored and stolen bases. She scored a run in 53 games this season and stole at least two bases in a game on 19 occasions.
“At CF, we provide a high quality education with small class sizes at a low price, as well as great opportunities to find high paying jobs upon graduation,” said Dr. Jim Henningsen, CF president. “We want to be known for giving students the best return on their education investment.”

CF student Jessica Cuebas, 33, saw an immediate return on her investment. Cuebas, who graduated from CF May 6 with a Bachelor of Applied Science in Business and Organizational Management, was recently hired by Winco Mfg., an Ocala-based manufacturer of medical furnishings.

CF requires all students in Bachelor of Applied Science programs and the majority of Associate in Science programs to complete a 120-hour internship. Cuebas started at Winco as an intern, and months later she was offered a full-time position as an inside sales representative.

“The end goal of my internship was getting a job, so I did everything from arriving early and staying late to taking advantage of new learning opportunities,” said Cuebas. “CF was incredibly helpful. From finding the perfect internship for me, to offering resume writing assistance and mock interviews through the Patriot Job Connection.”

CF employs two full-time staff members who work closely with area businesses to develop internship opportunities and place students in internships that match their individual interests. Patriot Job Connection is a service offered through CareerSource Citrus, Levy, Marion. Located in the Enterprise Center at the CF Ocala Campus, CareerSource offers students assessments to document skills proficiency, resume writing help, interviewing practice, and job leads.

Tish Webber, Winco Human Resources manager, said the college’s internship program and job placement efforts are working well.

“The College of Central Florida provides excellent interns who have relevant skills and are eager to take on the many challenges we face at Winco,” said Webber. “I’ve been pleased not only in their knowledge, skills and abilities but their passion and desire to take on different tasks to learn and grow as professionals.”

Henningsen said positive feedback from businesses is equally important as positive feedback from students.

“Serving area businesses is the other side of the coin,” said Henningsen. “We want employers to know that a CF diploma is a quality diploma.”

To that end, the college recently launched the CF Workforce Guaranteed Graduate program. The distinction guarantees employers that CF Associate in Science graduates are workforce ready. If an employer finds a graduate lacking in any area related to their program of study, CF will retrain the graduate at no cost to the employer or graduate.

“As any business stands behind the quality of its products or services, we stand behind the quality of our graduates,” said Henningsen. “We are confident that we are preparing our students to excel in their careers and in the workforce.”

To learn more about CF, visit CF.edu. To learn more about CF’s Guaranteed Graduate program, visit CF.edu/Guaranteed.

The College of Central Florida has long been the area’s go-to source for higher education. But now, it wants to be known for something more. Job placement.

The College of Central Florida targets job placement.
MEET THE CLASS OF 2016

CF AWARDED MORE THAN 1,600 CERTIFICATES AND DEGREES DURING SPRING AND SUMMER 2016.

Here are a few of our inspiring and outstanding graduates.

MAISEY RADCLIFFE AND JOHN VIANELLO
ASSOCIATE IN ARTS

Maisey Radcliffe and John Vianello are college sweethearts and served as CF Student Ambassadors. Both were members of Phi Theta Kappa honor society and were among 128 students in the state named to the 2016 All-Florida Academic Team. Both are also headed to the University of Florida in the fall — Radcliffe to study Chemistry and Vianello to study Mass Communication. “CF has been a great platform to get out of my comfort zone,” said Radcliffe. Vianello added, “CF is a very tight-knit community. It’s been a great experience.”

THERESA DAUCH
BACHELOR OF APPLIED SCIENCE, BUSINESS AND ORGANIZATIONAL MANAGEMENT, HEALTH CARE MANAGEMENT SPECIALIZATION

Theresa Dauch enlisted in the Army, working as a welder after high school. After having two children and working in a hospital setting, she enrolled at the CF Levy Center to pursue a career in health care. Dauch worked as a math tutor at the center while earning an A.A. and certificate in phlebotomy. While she plans to transfer to the University of Central Florida to earn a master’s degree in medical management, she said she will continue teaching others. “As a math tutor, I’ve helped so many students — from teenagers to senior citizens. CF has shown me it’s never too late to follow your dreams.”

ALLYSON BLINKHORN
ASSOCIATE IN ARTS

Thanks to the Early College program offered through West Port High School, Allyson Blinkhorn completed her A.A. in her first year after high school. She was very active on the Ocala Campus as a member of the Student Activities Board. Transferring to the University of Florida to major in English, she plans to become an attorney. “CF offered me an easy transition after high school where I could still do things independently and meet lots of cool people.”

DONALD O’SHALL
ASSOCIATE IN SCIENCE, NURSING

Citrus County residents Donald and Ann O’Shall hatched a plan 12 years ago to become registered nurses. Both LPNs working for Hospice, it was decided that Don would support Ann through her Associate Degree in Nursing program and then she would work and support him. In May 2015, both Don and Ann graduated, he with his A.A. and she with her A.S. This year, Don completed his A.S. in Nursing, making the O’Shall plan a reality and proving that dreams, dedication and teamwork pay off. “CF is such a great resource,” said Donald O’Shall. “Our community is fortunate to have the college.”

CHANDRA WEIBE
BACHELOR OF SCIENCE, EARLY CHILDHOOD EDUCATION

Chandra Weibe earned her A.A. from CF in 1999. After working for years as a teachers aide in Marion County, she returned to CF two years ago to make her dream of becoming a teacher a reality. A wife and mother of a 3-year-old boy, she graduated with a 4.0 GPA. “It’s never too late to go after your dreams,” she said.

MAISEY RADCLIFFE and JOHN VIANELLO
ASSOCIATE IN ARTS

Virgilio Lasaga not only graduated with a 4.0 GPA, he received the college’s Visual Arts Award and the Communications Award. He and a classmate won best of show in the 2016 Student Art Exhibition for a stop-motion video. Lasaga plans to transfer to the University of Florida to study digital arts and ultimately become a video game designer. “My experience at CF provided me with the skills to analyze the world around me, greatly influencing my ability to create more meaningful projects.”
Save the date
Florida College System honors Bove, Marino

Congratulations, Kristina Bove and Rob Marino. Bove, coordinator of Athletics and Wellness, received the Bob Graham Distinguished Service Award from the Florida College System Student Government Association. The award is given annually to one student, one college employee, one community supporter and one SGA advisor in Florida who has provided distinguished service to his or her community or state college. Bove won in the college employee category. Marino was inducted into the FCS Activities Association Hall of Fame. He has served as faculty adviser for the award-winning Patriot Press student newspaper for 11 years. Under his direction, the newspaper has garnered state and national recognition.

Hooker recognized for advanced proficiency

Congratulations Associate Professor Patti Hooker. Hooker received the Physical Therapist Assistant Advanced Proficiency Award from the American Physical Therapy Association June 8 in Nashville. The award recognizes physical therapist assistants who have achieved advanced proficiency through education, experience and leadership.

Marketing and Public Relations shines

CF Marketing and Public Relations programs and publications were recognized by three groups. The department earned eight Awards of Excellence from the Association of Florida Colleges Communications and Marketing Commission, three Gold Medallion awards and two silver Medallion Awards from the National Council for Marketing and Public Relations. Manager of Marketing and Public Relations Staci Biondini received two Florida Public Relations Association Image Awards for the SNAP-TAG-WIN Instagram Photo Contest.

Capitano named Adjunct of the Year

Congratulations, Gay Lyn Capitano. Capitano was named Adjunct Instructor of the Year at the college’s 28th annual Employee Service and Recognition Awards. She teaches class piano and applied private lessons and volunteers her time as an accompanist in college and community productions and concerts.
This spring the Appleton hosted its second ARTFUL Dining series, which raises funds to benefit the museum’s exhibitions and educational programming. This unique series combines great artwork, delicious food and spirited conversation, and the events are hosted by community members at venues in and around Marion County.

The five events included “All About Tea,” which treated guests to a presentation on tea varieties and a delicious tea-inspired menu, both provided by Chelsea Coffee Company, and “Uncorked” an evening of wine sampling at Chiefland’s Dakotah Winery. The Appleton continues to grow and present high quality exhibitions because of contributions made through events such as ARTFUL Dining.

Photographer Dana Gluckstein visited the Appleton April 21 to celebrate the opening of her exhibition “DIGNITY: Tribes in Transition,” which featured 60 black-and-white portraits of indigenous peoples, all photographed on a Hasselblad, square-format camera.

During her Artist Talk, Gluckstein spoke about her artistic journey. Then a commercial photographer, Gluckstein boarded a plane for an impromptu trip to Haiti that sparked a passion that would dominate her life: photographing the indigenous peoples who comprise six percent of the world’s population. She has traveled the world, often at her own expense, to record the lives of the Goba in Zambia, Maasai in Kenya, Quechua in Peru, and peoples in Bhutan, Botswana, Bali and Mexico, as well as native Hawaiians, members of the Navajo tribe in Arizona and the Campbell River Indian Band in Canada.

“It is my sincere wish that ‘DIGNITY’ will serve as a critical call to action in support of all indigenous peoples,” said Gluckstein. “The ‘ancient ones’ tell us where we have come from and where we must go as a world community. Humanity’s survival depends on how carefully we listen.”

“DIGNITY: TRIBES IN TRANSITION”  
APRIL 22 - JUNE 19

“NORMAN ROCKWELL: THE MAN BEHIND THE CANVAS”  
APRIL 30 - JULY 31

Norman Rockwell needs little introduction. The illustrator’s idealized versions of small towns, Middle America, and simple, happy times defined for millions what’s best about America and identified him as a true American Idealist. His work has shaped the way we see and think about the American experience.

Through July 31, visit the Appleton Museum of Art for a rare and unusual opportunity to get a glimpse of the man who privately, humbly, with dry Yankee wit and much wisdom, showed us a better version of ourselves. It is an intimate portrait of the artist through anecdotal and personal memorabilia and over 100 black-and-white photographs taken by Louis Lamone from the Charles & Joy Flint Collection. Also featured are more than 100 Saturday Evening Post covers from 1936-1963. It is not meant to be a survey course in Rockwell illustration.

“Norman Rockwell: The Man Behind the Canvas” originated from the LaGrange Art Museum, LaGrange, Georgia.

“Norman Rockwell: The Man Behind the Canvas” originated from the LaGrange Art Museum, LaGrange, Georgia.

The Appleton hosted a special event with animation artist James “Tim” Walker April 6, in partnership with the Silver Springs International Film Festival. The museum showed two screenings of the documentary “Brotherhood of the Popcorn,” featuring Walker, center, a renowned animator whose hand can be seen in hundreds of productions as an animator, director and producer. He’s worked on numerous “characters” including Scrooge McDuck, Tom and Jerry, Sylvester and Tweety, The Flintstones, Batman and Superman and many more. The screening coincided with the museum’s exhibition “Journey into Imagimation: 100 Years of Animation Art From Around the World,” which focused on the history of animation art. Pictured with Walker are Greg Thompson, left, and Woody Wise.

This spring the Appleton hosted its second ARTFUL Dining series, which raises funds to benefit the museum’s exhibitions and educational programming. This unique series combines great artwork, delicious food and spirited conversation, and the events are hosted by community members at venues in and around Marion County.

Stickwork artist Patrick Dougherty completed his “Fancy Free” sculpture on
the Appleton Museum of Art grounds Feb. 1-19. The large-scale, dynamic work
of art will be part of the museum’s Sculpture Walk and Garden for several
years, before it naturally decomposes.

Dougherty was inspired to create a sculpture with a jogging, casual footprint that
works in juxtaposition to the angular, linear quality of the Appleton’s building,
windows and reflecting pool. He also drew inspiration from Marion County’s status as
Horse Capital of the World. “Fancy Free” is a series of huts that resemble the natural,
easy gait of a horse, with the hut closest to the museum boasting a wild mane.

Dougherty was assisted by volunteers from near and far, including the College of
The museum is grateful for the hard work of volunteers who helped make the
building process successful and enjoyable.

While Dougherty was in Ocala, he also served as juror for the 2016 Ocala Outdoor
Sculpture Competition, picking the top sculptures of the 10 that were selected to be
on view in Tuscawilla Park for a 20-month installation.

A fantastic team of donors and organizations supported the project, allowing the
Appleton to host Dougherty for two weeks.

Stop by the Appleton to see “Fancy Free.” The Sculpture Walk and Garden is always
free to visit!
Betty Jones first enrolled at CF in 1997 and was accepted into the honors program. A wife and mother, she was forced to leave college to focus on her family. When her twin daughters, Amanda and Amber, enrolled at CF two years ago, Betty decided it was time to finish what she started. All three Jones women graduated with Associate in Arts degrees May 6.

“It’s the most wonderful feeling in the world,” said Betty, who graduated Cum Laude.

Both Betty and Amanda plan to continue at CF in the nursing program, while Amber plans to pursue a degree in hospitality.

The trio enjoyed having a built-in support system. They even shared a statistics class. Amanda said having her mom by her side has been neat.

“We did a lot of studying together. If she needed help, she’d come to me, and when I needed help, I’d go to her,” Amanda said.

It was fitting to Betty that spring commencement fell on Mother’s Day weekend.

“I couldn’t ask for a better Mother’s Day weekend,” Betty said. “I just love CF. I knew when the time was right for me to go back to school CF would be there. Completing my degree with my daughters has been more than I could ask for.”
